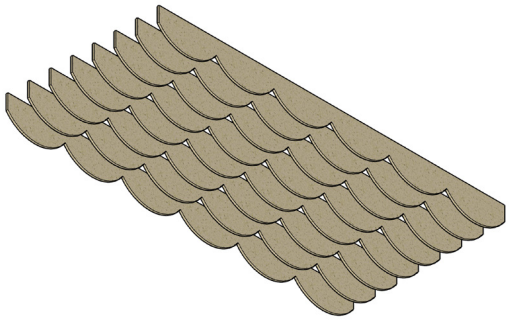
J2 PET FELT CURTAIN BAFFLE

PRODUCT DATA AND SPECIFICATIONS



J2 PET acoustic felt panels are cut into our Curtain shape and installed individually or as a system with included mounting hardware. Baffles are designed to trap noise and reverberation while adding style and substance to overhead spaces.

- Eco-friendly
- Hard-Wearing
- Durable
- 34 Color Options

STYLE: Suspended Ceiling Baffle

COMPOSITION: 100% PET (>75% recycled PET material)

THICKNESS: 9mm, 12mm, and 24mm (double layer 12mm) available on request

DENSITY: 1900g/sqm-2400g/sqm (approx 12pcf)

DIMENSIONS: Blade length up to 107" without seam or joint, customizable blade height

FIRE RATING: ASTM E84 – Class B
(Class A panels available on request)

ACOUSTIC NRC: Up to 0.75, depending on mounting method and configuration

APPLICATION: Ceiling

HARDWARE & INSTALLATION: SINGLE BAFFLES: Baffles are suspended using aircraft cable connected to cable adjusters. Each baffle includes two (2) 5ft lengths of 1/16" cable and cable adjusters. Hardware options include two (2) u-channel mounting brackets, (1) continuous bracket, or directly-attached studs. Due to varying ceiling layouts and substrates, contractor is required to supply ceiling mounting hardware. Specific hardware is available upon request.

BAFFLE SYSTEMS: Baffle Systems include notched mounting rails (two or three rails, depending on the length and design of baffle blade, and notch spacing is customizable) and 5ft lengths of 1/16" cable and cable adjusters (four cables and adjusters for shorter baffles, six cables and adjusters for longer baffles). Due to varying ceiling layouts and substrates, contractor is required to supply ceiling mounting hardware. Specific hardware is available upon request.

WARRANTY: 4-year warranty against workmanship and manufacturing defects
